A BERKLEY  
COMPANY

### OUR MISSION

FinSecure, LLC is dedicated to providing customized insurance solutions and complementary services to the financial services sector. Our goal is to be the provider of choice because of our strong security, unrivalled expertise and outstanding underwriting and claims service. We create ease of doing business through high-touch service and cutting edge technology. We listen to our customers before we respond.

### COMPANY DESCRIPTION

Formed in May 2008, FinSecure, LLC offers a complete range of customized property casualty products for financial institutions. These products include commercial package policies, management liability coverages, financial institution bonds and management liability policies. For mortgage lenders we designed specialized policies to cover lender placed and real estate owned property portfolios and mortgage impairment exposures. The FinSecure TrustPro policy allows trust managers to insure their trust portfolios in a very efficient way. Products are available on an admitted and non-admitted basis. We distribute primarily through specialized wholesalers and retailers as well as industry associations.

Our team has an average of 20+ years experience in underwriting and servicing the financial services industry. This makes us a strong partner. We are very familiar with the needs and requirements of our customer segment and know how to respond. We understand the exposures and the need for protection through customized products and related services. The financial services industry has set high service standards for its customers and we know the same is expected from us.

### HOW FINSECURE IS DIFFERENT

Placing your insurance with FinSecure gives you the “best of both worlds”: the security of A.M. Best and S&P A+ rated paper and the resources of a Fortune 500 corporation, combined with the agility and flexibility of a small entrepreneurial business.

Many of our competitors evolve into generalists. FinSecure is committed to remaining a specialty company, focused on insuring financial institutions – and this focus is by design because specialists outperform generalists. Our business model is customer centric – the way we operate, the team we hired, our products and the way we service our clients – everything is designed with the needs of our target market in mind.

We believe that our clients deserve this level of attention.

FinSecure is built around four core principles:

**Clear Focus** We are committed to providing custom designed property and liability insurance solutions along with complementary risk management services – not just a generic insurance product.

**Unmatched Expertise** Our track record is excellent. Our clients are dealing with experts who speak their language and know their business from a distribution, underwriting, claims and regulatory perspective.

**Strong Protection** We write on behalf of W. R. Berkley Corporation member companies StarNet Insurance Company, Gemini Insurance Company, Great Divide Insurance Company and Berkley Regional Insurance Company, each of which carry A.M. Best and S&P ratings of A+.
